- Using PowerShell
- Deploying client software
- Monitoring and maintaining system backups, infrastructure performance, and security network configuration including DNS, routing, and VLANs
- End-user and customer support
- Equipment maintenance
- Database administration
- Azure management
- Systems integration
- Web site hosting
- Loading the dishwasher....whatever it takes.

We are looking for someone with industry or hands-on specific knowledge and/or skills in the following:

- Physical and virtual servers
- Microsoft Windows s/w stack
- Cisco and *Nix operating systems
- Cloud computing
- Web technologies
- Databases
- Networking
- Scripting
- Productivity software
- Industry best practices
- Security
- Analytical problem solving skills

DESIRED DEGREE & ACADEMIC MAJOR: Computer Engineering, Computer Science, Mathematics, Electronic / Electrical Engineering, other infrastructure focused.

Trillium Teamologies, Inc. (TTI) – a certified Women’s Business Enterprise (WBE) – delivers exceptional solutions addressing the diverse business demands of global industry leaders, and drives these opportunities from its headquarters built in 1996 in downtown Royal Oak, Michigan.
